

RFID LABELS

Dipole STANDARD

CUSTOMIZABLE PRODUCT

PRINTABLE PRODUCT

SMART LABEL

Dipole manufactures all kinds of RFID labels, both UHF (860-960 MHz EPC Class1 Gen2) and NFC (13,56MHz ISO 14443 A NFC Forum). All of them comply with international standards, and are printable with standard printers.

Labels can have different IC depending of which memory capacity is required: Impinj Monza, NXP G2i1 or UCODE, Alien Higgs, etc.

The materials and adhesives used on the label are manufactured according to your needs: standard paper, cardboard, polyethylene, polyamide, special adhesive, etc. We also offer different delivery formats: reel, zig-zag, or spare

Benefits

- > Product tracking possibilities
- > Totally customizable
- > Easy to use and apply
- > We deliver around the world

Product Details

Dimensions

Totalmente personalizable
Ej: 97x15 mm / 100x50 mm
148x210 mm / 45x75 mm...

Materials

Papel / PP / PE / PET /
Thermic materials

Adhesive

All permanent and
removable ranges

Temperature

According to material

IC Types

Impinj / NXP / Higgs

Standards

ISO 18000-6C / C1 / G2 UHF
ISO 14443 A NFC

Frequencies

UHF / NFC

Memory configuration

According to IC family

Preferred Uses

You may use Dipole STANDARD for:

- > Logistics
- > Pallets
- > Logistic processes
- > Industrial processes
- > Plastic containers
- > Harsh working environments
- > High temperatures
- > Cold chambers
- > Normative compliance
